specchio | *mirror*
Martina Bartoli 2018

Un evidente richiamo al motivo dell'intreccio: lo specchio rettangolare Twill è un omaggio alla sartoria maschile, citando il tessuto dal forte andamento diagonale, che si ottiene intrecciando i fili in modo da creare una struttura orientata a 45°, che viene utilizzato per dare inediti riflessi a stoffe in tinta unita.

A clear reference to a weaving motif: the rectangular Twill mirror is a tribute to the exclusive world of men's tailoring, citing the strong diagonal weave, which is created by weaving the threads in order to create a 45° oriented structure, used to give unprecedented reflections to plain-colored fabrics.
