Dettagli in oro 24k opaco e nickel nero opaco

Un leggero tondino in metallo che si appoggia sul piano per poi risollevarsi, sembra sfiorare la superficie con un rapido tocco, definendo i manici dei vassoi Touché.

La forma morbida della base, tonda o ovale, dialoga con il sottile tubolare dando l'impressione di un moto ondulatorio perpetuo, che sembra svanire quando si osservano i vassoi in pianta.

A light metal rod that rests on the surface and then lifts up seems to touch the surface with a quick tap, defining the handles of Touché trays.

The organic shape of the base, round or oval, combines with the thin tubular giving the impression of a perpetual undulating motion, which seems to vanish when the trays are looked at from above.
