tavolino con luce, coffee table with light
matteo fiorini, 2018

Like a photon in constant motion, bending space as it goes, the luminous source seems to have sufficient weight to distort the top on which it rests. The concept is inspired by Albert Einstein's Theory of Relativity and his space-time studies. The curved shape of the top, a surprising yet subtle touch, confers a discreet personality to an object characterised by simple, clean-cut shapes and an interesting textural note.

Technical Data

H 500 mm

Ø 400 mm

Integrated LED module

100 - 240 | 50-60 Hz

IP20

ON / OFF switch

200 mm textile cable

Materials

Galvanized or Textured matte
painted metal

Blown glass diffuser

Configuration

Type C (EU)

Optional: Tyle G / UL

BURGUNDY

BLACK

PETROL GREEN

POLISHED NICKEL
