touche' redefined

tray collection
martina bartoli, 2026

Touché trays are now available in four new finishes—Butter, Dark Chocolate, Ice, and Earth—a palette inspired by the latest color trends, bringing warmth, depth, and versatility to contemporary interiors.

A slender metal rod rests gently on the surface before lifting with a light touch, defining the signature handles of the Touché trays.

Available with a round or oval base, the tray combines soft, organic shapes with the lightness of the tubular frame, creating the impression of a continuous, flowing movement. Viewed from above, this dynamic gesture almost disappears, revealing the purity and simplicity of its form.

A light metal rod that rests on the surface and then lifts up seems to touch the surface with a quick tap, defining the handles of Touché trays. The organic shape of the base, round or oval, combines with the thin tubular giving the impression of a perpetual undulating motion, which seems to vanish when the trays are looked at from above.

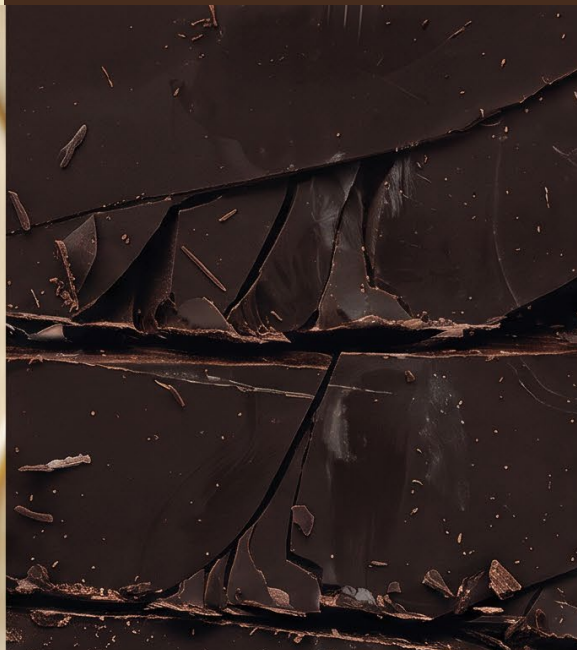

code M-E.160.012
Touché A Ø 36 cm
small round tray with round metal handle

BURRO

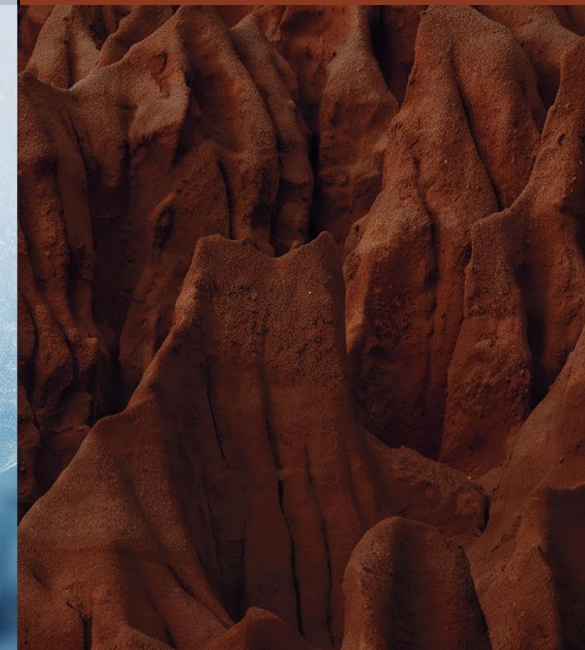

code M-E.164.015
Touché E Ø 48 cm
round tray with round metal handle
